

Coming JUNE 2024! Mission Trip to Kentucky!

We are planning a Mission Trip to help rebuild homes in Kentucky.

June 22-30, 2024

Each year the Rev. Greg Denk (of the Indiana-Kentucky Conference of the United Church of Christ) leads groups to serve and support the areas impacted by tornadoes in Indiana and Kentucky. These groups are responding to the tornado affected areas in western Kentucky (2021) and the Eastern Kentucky Floods (2022) as the ongoing work continues. An additional five years worth of work is needed to rebuild homes.

This trip will be in partnership with the Farmington Valley Association (FVA) of the Southern New England Conference of the United Church of Christ. The FVA will be providing money to help off-set the cost for individuals to attend this trip, and additional fundraisers will be needed to cover the costs.

From the churches in our region, we have 29 people planning to attend the trip (20 of the people are from our congregation!). We will be doing some fundraisers to help offset the cost for our 20 individuals to attend this trip because - even though the Association is also contributing some funds - all costs will not be covered (rental vans, food, hotel, fee to our host church in Kentucky, etc). Be on the lookout for our fundraising opportunities and how you can help our participants in this mission endeavor!
